

# MasterMoney ATM Application

## Your Key To Convenience.

Think of your MasterMoney card as a "plastic check." Like an ATM card, the MasterMoney card is linked to your checking account, which means you can use it at ATMs around the world. And since MasterMoney card is also part of the MasterCard network, you can use it just like a credit card to make purchases. But instead of charging purchases, the amount is deducted automatically from your checking account, so there are no finance charges. It's also easy to keep track of your cash, since your purchases are listed on your monthly statement. The MasterMoney card is accepted anywhere you see the MasterCard symbol. There are more than 12 million MasterCard merchants worldwide. You can also use your card at places which normally don't accept checks.
